

Shoreline Substantial Development

I

A shoreline substantial development permit is the process through which development is authorized for those activities occurring within the shoreline jurisdiction. A shoreline substantial development permit is part of the Shoreline Management Act established by the State of Washington under RCW 90.58. The Hunts Point Shoreline Master Program establishes uses, regulations, and standards for all substantial development. Substantial development is defined as any development in which the fair market value exceeds \$5,718.00. The shorelines of the town are those land areas within 200 feet of the Ordinary High Water Mark (OHWM) of Lake Washington.

Process

Pre-application Conference

A pre-application conference with the Building Services Department may be required prior to submittal of a substantial development permit application.

Submittal

Upon receipt of a complete application, town staff will issue a notice of application which is posted on the street right-of-way, on waterfront property adjacent to the proposed project, and posted at all the regular posting sites maintained by the town, and sent to other parties as outlined in HPMC 11.10.160(4).

SEPA Procedure

The town shall issue a SEPA determination, or other SEPA decisions as provided in HPMC Chapter 16.05. After the SEPA determination is made, it is published before a public hearing is held by the hearing examiner. There is a public comment period which shall be not less than 14 or more than 30 days following the date of notice of application.

Hearing Procedure

The notice of application shall be provided at least 15 days prior to the public hearing date and must be provided pursuant to HPMC 11.10.160(4). Upon completion of the public hearing, the hearing examiner shall render a written decision within 10 working days. Said decision shall be mailed to all parties of record within three days after the hearing examiner's decision is made pursuant to HPMC 2.35.100. The hearing examiner's decision is final unless appealed to King County Superior Court.

Request for Reconsideration

Any party to the proceeding who is aggrieved by the decision of the hearing examiner may submit a written

Request for reconsideration of the hearing examiner by filing a request with the town clerk within 14 calendar days of the hearing examiner's decision pursuant to HPMC 2.35.110.

Appeal From Hearing Examiner's Decision

The decision of the hearing examiner may be appealed by any party with standing to the King County Superior Court pursuant to the time limits in RCW 36.70C.040 as it now exists or may hereafter be amended.

Applicable Code Titles

Hunts Point Municipal Code (HPMC) Title 2, Administration & Personnel

HPMC Title 3, Revenue & Finances

HPMC Title 11, Planning and Development (Comprehensive Plan & Permit Process)

HPMC Title 16, Environment

HPMC Title 18, Zoning

Fees

See fee schedule

Town Hall, 3000 Hunts Point Road, Hunts Point, WA 98004-1121. Phone 425.455.1834, FAX 425.454.4586. Permit intake and issuance hours are Tuesday and Thursday, 8am-12pm and 1pm-5pm. Building Services Department 425.455.1834.

The intake checklist identifies minimum application elements necessary for the town to accept the application. Should any of the following minimum items not be provided, the application may not be accepted at the counter.

Applicant: Check each box under the applicant heading on this checklist to confirm items that are included in your submittal.

The required number of plan sets is nine (9). If applying for multiple permits concurrently, submit the highest number of required plan sets.

General Requirements (1 original copy of each item is required):
If an item is not applicable, attach explanation.

Applicant

- ☐ Completed general application form
- ☐ Proof of agency and hold harmless agreement form
- ☐ Deed/title report
- ☐ The applicable fees
- ☐ Record Sales Tax Under #1713 Town of Hunts Point, WA 98004-1121, for purposes of reporting to the Department of Revenue
- ☐ Copy(s) of the recorded legal descriptions of the existing property(s) boundary(s) and dimensions of property and/or legal description of the site for all applications as required by the applicable development regulations
- ☐ Notes and determinations from the pre-application conference (if applicable)
- ☐ SEPA Checklist
- ☐ Photographs of existing shoreline conditions

Application Requirements nine (9) copies required):

- ☐ Detailed drawings with text sufficient to fully explain the intended project (drawings prepared, signed and sealed by a professional engineer or land surveyor), with information that must include

Town Hall, 3000 Hunts Point Road, Hunts Point, WA 98004 Phone 425.455.1834, FAX 425.454.4586. Permit intake and issuance hours are Tuesday and Thursday, 8am-12pm and 1pm-5pm. Building Services Department 425.455.1834.

- ☐ Name and location of associated shoreline or wetland
- ☐ A general statement describing the proposed project that includes the proposed use or uses and the activities necessary to accomplish the project
- ☐ Indication of size and placement of all structures including bulkheads
- ☐ Relation of all physical development to the associated shoreline or wetlands
- ☐ The intended starting and completion dates
- ☐ Boundary and setback lines/stringlines of the parcel or land upon which the development is proposed
- ☐ Ordinary high water mark [see WAC 173-27-180(9)(b)]
- ☐ Delineation of all wetland and buffer areas that are proposed to be altered
- ☐ Description of the character of vegetation found on site and where applicable a mitigation plan for development of areas on or off the site for impacts associated with the proposed project
- ☐ Description of the quantity, source and composition of any fill material that is intended to be placed on the site whether temporary or permanent
- ☐ Description of the quantity, composition and destination of any fill material that is intended to be excavated or dredged
- ☐ Location of the shoreline jurisdiction line and area (200 feet from ordinary high water mark and associated wetlands)
- ☐ Vicinity map
- ☐ Location of any utility easements and verification from the City of Bellevue of the sewer line location
- ☐ Submit an 8 ½" X 11 site plan

9

Expiration: _____

- ☐ Special Use for Wireless Facilities
- ☐ Subdivisions (Short & Major)
- ☐ Tree Removal

Proof of Agency / Hold Harmless Agreement

9a

PROPERTY ADDRESS: _____

PERMIT TYPE: _____ PERMIT NUMBER: _____

Proof of Agency

A proof of agency is required for the acceptance of any permit where the permit applicant ("agent") is not the recorded owner of the property ("owner"). If the owner is a corporation, LLC, LLP, or partnership, this form must be completed and signed by the chief executive of the entity that holds ownership of the property in question.

Owners which apply for permits on their own behalf do not need to complete this form. **All other applicants must fully complete this form, including the owner's signature, before the Town of Hunts Point will process any application documents.** Each separate application must include an original, fully executed Form 9a, Proof of Agency/Hold Harmless Agreement.

TO BE COMPLETED BY OWNER:

I, _____, as the owner of
(print name of property owner or, in case of corporation, LLC, LLP or partnership, company Chief Executive)
the above-referenced property, hereby authorize the person or entity outlined below (the "agent") to act as my sole agent regarding the above-referenced property, and further stipulate that the agent may act on my behalf for purposes of filing applications for decisions, determinations, permits, or review under any applicable Hunts Point Codes, and further stipulate that the Agent has full power and authority to perform, on my behalf, all acts necessary to enable the Town to process or review applications, issue permits, authorize revisions, and perform inspections required under all codes in force. **I certify under penalty of perjury under the laws of the State of Washington that the foregoing is true and correct.**

Town Hall, 3000 Hunts Point Road, Hunts Point, WA 98004-1121. Phone 425.455.1834, FAX 425.454.4586. Permit intake and issuance hours are Tuesday and Thursday, 8am-12pm and 1pm-5pm. Building Services Department 425.455.1834.

Hold Harmless Agreement

A hold harmless agreement is required for the acceptance of any permit, and must be signed by the property owner. If the owner is a corporation, LLC, LLP, or partnership, this form must be completed and signed by the chief executive of the entity that holds ownership of the property in question. There are no permits or circumstances under which the town will accept application without an executed hold harmless agreement.

TO BE COMPLETED BY OWNER:

I, _____, as the owner of
(print name of property owner or, in case of corporation, LLC, LLP or partnership, company Chief Executive)
the above-referenced property, hereby agree as a condition of permit application and/or issuance, to protect, defend, and hold harmless the Town of Hunts Point, its officers, agents and employees, and to indemnify them from all liability, loss and expense, including reasonable attorneys fees, that the Town of Hunts Point, its officers, agents and employees may incur by reason of accepting this application and/or issuing this permit, and all other acts taken by the Town of Hunts Point relating to the work described under the permit documents including but not limited to plans examination, issuance of permit(s), inspection and approval of construction and issuance of certificates of occupancy, to the extent that any such liability, loss and expense results from any errors or the misrepresentation of any material fact in the permit application documents, whether negligent or intentional. I further certify that I am the owner of the property referenced at the top of this document. **I certify under penalty of perjury under the laws of the State of Washington that the foregoing is true and correct.**

Town Hall, 3000 Hunts Point Road, Hunts Point, WA 98004-1121. Phone 425.455.1834, FAX 425.454.4586. Permit intake and issuance hours are Tuesday and Thursday, 8am-12pm and 1pm-5pm. Building Services Department 425.455.1834.

The State Environmental Policy Act (SEPA) was established to ensure that environmental values are considered by local government when making decisions. Decisions include development decisions such as preliminary plats, shoreline substantial development permits, other official actions, as well as certain legislative actions. Agencies must follow specific procedures and processes to assure that appropriate consideration has been given to the environment.

Process

Pre-Application Conference

A pre-application conference may be required by the Building Services Department and shall address environmental issues.

Procedure

An application for SEPA Determination must be associated with a land use or building permit. Upon submittal of an action, the Building Services Department reviews the checklist and all documentation to define the level of direct environmental impact associated with the proposal.

The threshold determination shall be made by the responsible official and shall consist of one of the following:

1) A Determination of Significance (DS), which means that the project represents significant adverse environmental impacts and requires preparation of an Environmental Impact Statement (EIS), 2) A Determination of Non-Significance (DNS), which means that the project does not represent significant adverse environmental impacts, 3) A Determination of Non-Significance – Mitigated (MDNS) which lists specific conditions, modifications, or measures to be implemented into the proposal to avoid the significant adverse environmental impact. The responsible official shall complete threshold determinations based upon review of the environmental checklist and other documentation for the proposal within 15 days of the date an application and completed checklist are deemed complete, with exceptions as pursuant to HPMC 16.05.080.

Under SEPA, a project may also be determined categorically exempt. Except in extraordinary circumstances, the responsible official will decide whether an action is categorically exempt within seven days of receiving a completed application. Other actions that the responsible official may take include: 1) Adoption of an existing SEPA document, provided that the adopted document clearly anticipated the stated impact and provided for mitigation of any significant impacts, 2) other actions as outlined in HPMC 11.10.170.

There is a 15-day SEPA comment period, followed by a 14-day appeal period. Appeals shall be conducted for a SEPA determination pursuant to HPMC 16.05.290.

Town Hall, 3000 Hunts Point Road, Hunts Point, WA 98004-1121. Phone 425.455.1834, FAX 425.454.4586. Permit intake and issuance hours are Tuesday and Thursday, 8am-12pm and 1pm-5pm. Building Services Department 425.455.1834.

Purpose of checklist:

The State Environmental Policy Act (SEPA), chapter 43.21C RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An Environmental Impact Statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

Instructions for applicants:

This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write "do not know" or "does not apply." Complete answers to the questions now may avoid unnecessary delays later.

Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the governmental agencies can assist you.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Use of checklist for non-project proposals:

Complete this checklist for non-project proposals, even though questions may be answered "does not apply." in addition, complete the supplemental sheet for non-project actions (part D).

For non-project actions, the references in the checklist to the words "project," "applicant," and "property or site" should be read as "proposal," "proposer," and "affected geographic area," respectively.

TO BE COMPLETED BY APPLICANT

EVALUATION **FOR AGENCY USE ONLY**

A. BACKGROUND

1. Name of proposed project, if applicable:
2. Name of applicant:
3. Address and phone number of applicant and contact person:

Town Hall, 3000 Hunts Point Road, Hunts Point, WA 98004-1121. Phone 425.455.1834, FAX 425. 454.4586. Permit intake and issuance hours are Tuesday and Thursday, 8am-12pm and 1pm-5pm. Building Services Department 425.455.1834.

4. Date checklist prepared:
5. Agency requesting checklist:
6. Proposed timing or schedule (including phasing, if applicable):
7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.
8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.
9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain.
10. List any government approvals or permits that will be needed for your proposal, if known.
11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)
12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

B. ENVIRONMENTAL ELEMENTS

EARTH

- a. General description of the site (circle one): Flat, rolling, hilly, steep slopes, mountainous, other _____.
- b. What is the steepest slope on the site (approximate percent slope)?

c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any prime farmland.

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.

e. Describe the purpose, type, and approximate quantities of any filling or grading proposed. Indicate source of fill.

f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.

g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?

h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:

AIR

a. What types of emissions to the air would result from the proposal (i.e., dust, automobile, odors, industrial wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known.

b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

c. Proposed measures to reduce or control emissions or other impacts to air, if any:

WATER

a. Surface:

1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.

5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

b. Ground:

1) Will ground water be withdrawn, or will water be discharged to ground water? Give general description, purpose, and approximate quantities if known.

2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals, agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

c. Water runoff (including storm water):

1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

2) Could waste materials enter ground or surface waters? If so, generally describe.

d. Proposed measures to reduce or control surface, ground, and runoff water impacts, if any:

PLANTS

a. Check or circle types of vegetation found on the site:

____ deciduous tree: alder, maple, aspen, other

____ evergreen tree: fir, cedar, pine, other

____ shrubs

____ grass

____ pasture

____ crop or grain

____ wet soil plants: cattail, buttercup, bullrush, skunk cabbage, other

____ water plants: water lily, eelgrass, milfoil, other

____ other types of vegetation

b. What kind and amount of vegetation will be removed or altered?

c. List threatened or endangered species known to be on or near the site.

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:

ANIMALS

a. Circle any birds and animals which have been observed on or near the site or are known to be on or near the site:

birds: hawk, heron, eagle, songbirds, other:

mammals: deer, bear, elk, beaver, other:

fish: bass, salmon, trout, herring, shellfish, other:

b. List any threatened or endangered species known to be on or near the site.

c. Is the site part of a migration route? If so, explain.

d. Proposed measures to preserve or enhance wildlife, if any:

ENERGY AND NATURAL RESOURCES

- a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.
- b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.
- c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any:

ENVIRONMENTAL HEALTH

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste that could occur as a result of this proposal? If so, describe.

1) Describe special emergency services that might be required.

2) Proposed measures to reduce or control environmental health hazards, if any:

b. Noise

1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

3) Proposed measures to reduce or control noise impacts, if any:

LAND AND SHORELINE USE

- a. What is the current use of the site and adjacent properties?
- b. Has the site been used for agriculture? If so, describe.
- c. Describe any structures on the site.
- d. Will any structures be demolished? If so, what?
- e. What is the current zoning classification of the site?
- f. What is the current comprehensive plan designation of the site?
- g. If applicable, what is the current shoreline master program designation of the site?
- h. Has any part of the site been classified as an "environmentally sensitive" area? If so, specify.
- i. Approximately how many people would reside or work in the completed project?
- j. Approximately how many people would the completed project displace?
- k. Proposed measures to avoid or reduce displacement impacts, if any:
- l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:

HOUSING

- a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.
- b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.
- c. Proposed measures to reduce or control housing impacts, if any:

AESTHETICS

- a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?
- b. What views in the immediate vicinity would be altered or obstructed?
- c. Proposed measures to reduce or control aesthetic impacts, if any:

LIGHT AND GLARE

- a. What type of light or glare will the proposal produce? What time of day would it mainly occur?
- b. Could light or glare from the finished project be a safety hazard or interfere with views?
- c. What existing off-site sources of light or glare may affect your proposal?
- d. Proposed measures to reduce or control light and glare impacts, if any:

RECREATION

- a. What designated and informal recreational opportunities are in the immediate vicinity?
- b. Would the proposed project displace any existing recreational uses? If so, describe.

c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any:

HISTORIC AND CULTURAL PRESERVATION

a. Are there any places or objects listed on, or proposed for, national, state, or local preservation registers known to be on or next to the site? If so, generally describe.

b. Generally describe any landmarks or evidence of historic, archaeological, scientific, or cultural importance known to be on or next to the site.

c. Proposed measures to reduce or control impacts, if any:

TRANSPORTATION

a. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any.

b. Is site currently served by public transit? If not, what is the approximate distance to the nearest transit stop?

c. How many parking spaces would the completed project have? How many would the project eliminate?

d. Will the proposal require any new roads or streets, or improvements to existing roads or streets, not including driveways? If so, generally describe (indicate whether public or private).

e. Will the project use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.

f. How many vehicular trips per day would be generated by the completed project? If known, indicate when peak volumes would occur.

g. Proposed measures to reduce or control transportation impacts, if any:

PUBLIC SERVICES

a. Would the project result in an increased need for public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe.

b. Proposed measures to reduce or control direct impacts on public services, if any.

UTILITIES

a. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other.

b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

C. SIGNATURE

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.
